# FOREWORD

## ***Dear colleagues, dear students,***

*Thank you for choosing the Czech University of Life Sciences Prague (CULS) as a destination for your studies and/or research, either for a few weeks, a short term mobility scheme, such as that offered in the framework of the LLP ERASMUS programme, or for long term graduate studies at one of our Faculties or Institutes. CULS is one of the top universities in the Czech Republic and international cooperation is top priority for us. CULS has signed more than 150 bilateral agreements with universities throughout Europe and 80 universities around the world. CULS is member of several international university networks, including in the prestigious Euroleague for Life Sciences (ELLS) [www.euroleague-study.org](http://www.euroleague-study.org)*

*International students are traditionally a great asset for our academic community. For them, as well as for local students, CULS offers this academic year 7 BSc and 17 MSc study programmes taught entirely in English. Our professors and teachers will share with you their advanced theoretical and practical knowledge and skills in diverse disciplines related to life sciences, such as agriculture and forestry, environmental management, ecology, land and water management, engineering, agricultural economics, economics and management, business administration, informatics, social sciences and rural development, sustainable energy resources and technologies, including the projection of all above mentioned disciplines in tropical and subtropical regions of our planet.*

*Currently, CULS is a temporary home for more than 1200 international degree students from 86 countries. In the academic year 2012 – 2013 we hosted 370 LLP ERASMUS students from all around Europe. We are particularly pleased with the presence of students from Central Asia coming to CULS within the framework of the ERASMUS Mundus Action 2 CASIA, students from South East Asia coming to CULS in the framework of ERASMUS Mundus Action 2 EURASIA2, as well as Russian students studying at CULS in the framework of ERASMUS Mundus Action 2 IAMONET-RU. Last but not least, we are happy to host students from the USA and from Canada, coming to CULS for exchange or degree*

*studies and/or for the traditional Summer School for American students, organised by the Faculty of Economics and Management for the past 21 years.*

*I am confident that studies at CULS will be highly beneficial for you. Becoming a member of our academic community, be it for a semester or for several academic years, will surely enhance your knowledge and scientific understanding of the world we live in – the world of life sciences.*

*Professor Ing. Jiří Balík, CSc  
Rector*

## **FACULTY OF AGROBIOLOGY, FOOD AND NATURAL RESOURCES (FAFNR)**

1. Department of Agroecology and Biometeorology
2. Department of Agroenvironmental Chemistry and Plant Nutrition
3. Department of Botany and Plant Physiology
4. Department of Genetics and Breeding
5. Department of Husbandry and Ethology of Animals
6. Department of Chemistry
7. Department of Quality of Agricultural Products
8. Department of Microbiology, Nutrition and Dietetics
9. Department of Plant Protection
10. Department of Soil Science and Soil Protection
11. Department of Forage Crops and Grassland Management
12. Department of Crop Production
13. Department of Animal Husbandry
14. Department of Veterinary Sciences
15. Department of Water Resources
16. Department of Horticulture
17. Department of Landscape Architecture
18. Department of Zoology and Fisheries

## **FACULTY OF ECONOMICS AND MANAGEMENT (FEM)**

1. Department of Economic Theories
2. Department of Humanities
3. Department of Information Engineering
4. Department of Information Technologies
5. Department of Languages
6. Department of Trade and Accounting
7. Department of Systems Engineering
8. Department of Law
9. Department of Psychology
10. Department of Management
11. Department of Statistics
12. Department of Economics

## **FACULTY OF ENVIRONMENTAL SCIENCES (FES)**

1. Department of Applied Geoinformatics and Spatial Planning
2. Department of Environmental Geosciences
3. Department of Ecology
4. Department of Land Use and Improvement
5. Department of Water Resources and Environmental Modelling
6. Department of Applied Ecology

## **FACULTY OF FORESTRY AND WOOD SCIENCES (FFWS)**

1. Department of Dendrology and Forest Tree Breeding
2. Department of Forestry Economics and Management
3. Department of Forest Harvesting
4. Department of Forest Management
5. Department of Forest Protection and Entomology
6. Department of Game Management and Wildlife Biology
7. Department of Silviculture
8. Department of Wood Processing
9. Department of Wood Products and Wood Constructions

## **FACULTY OF ENGINEERING (TF)**

1. Department of Electrical Engineering and Automation
2. Department of Physics
3. Department of Quality and Dependability of Machines
4. Department of Mathematics
5. Department of Material Science and Manufacturing Technology
6. Department of Mechanical Engineering
7. Department of Technological Equipment of Buildings
8. Department of Vehicles and Ground Transport
9. Department of Machinery Utilization
10. Department of Agricultural Machines

## **FACULTY OF TROPICAL AGRISCIENCES (FTA)**

1. Department of Animal Science and Food Processing in Tropics and Subtropics
2. Department of Economic Development
3. Department of Sustainable Technologies
4. Department of Crop Sciences and Agroforestry in Tropics and Subtropics

## **INSTITUTE OF EDUCATION AND COMMUNICATION (IEC)**

1. Department of Pedagogy
2. Department of Lifelong Learning and Study Support
3. Department of Professional and Personal Development

# FACTS & FIGURES

Faculties: **6**

Institutes: **1**

Departments: **60**

Academic Staff (professors, assistants, lecturers & support staff): **1700**

Enrolled students: **25 000** (Academic year 2012 – 2013)

International students: **1 850** (Academic year 2012 – 2013)

Degrees awarded: **Bc. (BSc), Ing. (MSc), PhD**

Number of BSc study programmes/fields of studies: **67**

Number of MSc study programmes/fields of studies: **77**

Number of PhD study programmes/fields of specialisation: **75**

Number of BSc study programmes taught in English: **6**

Number of MSc study programmes taught in English: **16**

PhD study programmes/fields of specialisation in English: **23**

LLP ERASMUS outgoing students: **370** (Academic year 2012/2013)

LLP ERASMUS incoming students: **351** (Academic year 2012/2013)

The history of our university starts with the establishment of the Department of Agricultural and Forestry Sciences at the Czech Polytechnics University in 1906. In 1920 the Department of Agriculture received the status of a University College. The University College of Agriculture (VSZ) was then part of the new Czech Technical University in Prague (CVUT). After WWII, from 1948 to 1960's, VSZ grew in size and by 1965 it was moved to a newly built campus in Suchbátka, a small township about six kilometres from downtown Prague, on its north western outskirts. In January 1995 VSZ was renamed, by a Czech Governmental Act, to Česká zemědělská univerzita v Praze (ČZU), Czech University of Agriculture Prague (CUA). In line with the Bologna Declaration (1999), a three tier (BSc, MSc, PhD) educational system was set up at all Faculties and Institutes at the start of the new millennium. In January 2007 the official English name of our university was changed to Czech University of Life Sciences Prague (CULS), reflecting the full scope of the educational and research objectives of the university. As of 1 July 2007 the former Faculty of Forestry and Environment has been divided into two specialised Faculties, namely the Faculty of Forestry and Wood Sciences and the Faculty of Environmental Sciences. A newly built University Centre for Environmental Studies was inaugurated on 8 February 2011. The Institute of Tropics and Subtropics has been transformed in the Faculty of Tropical Agrisciences in 2013.

1. Exchange students (LLP ERASMUS, ERASMUS MUNDUS, TEMPUS, etc.) can apply for a period of either 1 semester or 1 academic year. Applications for the winter semester (or for the entire academic year) must be submitted by 15 June, applications for the summer semester must be submitted by 15 November.
2. We require originals of these documents:
  - 2 x Application**
  - 2x Learning Agreement**
  - 1x Transcript of Records** (listing all subjects studied by the student at his/her home university in the past academic year)
  - 1x Reservation for Accommodation**  
Forms can be downloaded at <http://www.czu.cz/en/?r=962>
3. Exchange students may select subjects taught in one of the BSc or MSc study programmes taught in English. Exceptionally they can also select subjects from a different study programme. Selected subjects are written by the student in an official document – Learning Agreement – which must be filled out in 2 copies and signed by the Departmental and Institutional Coordinators of the sending university. Together with the Transcript of Records and Application Form, the Learning Agreement must be sent to CULS incoming student coordinator (contact below) before departure.
4. In order to fulfil LLP ERASMUS requirements students must acquire a total of 30 ECTS per semester, or 60 ECTS per academic year
5. Grades and ECTS credits acquired during studies at CULS are written in a Transcript of Records, which is issued by the relevant Faculty of CULS and signed by the Departmental Coordinator. Without a Transcript of Records issued by CULS, fulfilling all the ECTS requirements, study results will not be recognised by the sending university.

**Documents should be sent to:**

**Ing. Jitka Malatková LLP ERASMUS Incoming student coordinator**

**malatkova@rektorat.czu.cz**

**Fax: +420 224 382 070**

# MAIN UNIVERSITY REGULATIONS

1. The Czech University of Life Sciences Prague (CULS Prague), its Faculties and Institutes, ensure higher education within the framework of accredited study programmes. These study programmes are accredited by CULS internal regulations and subsequently approved by the Accreditation Commission of the Ministry of Education, Youth and Sports of the Czech Republic, in accordance with EU regulations.
2. The Bachelor study programmes are meant for specific professional purposes as well as a platform for subsequent Master study programmes. The undergraduate is awarded the Czech academic title “**Bc.**“ The standard study period is 3 years.
3. The Master and the follow up Master study programmes are meant for acquiring theoretical knowledge and mastering its practical application. The Master graduate is awarded the Czech academic title “**Ing.**“. The standard study period is 2 years.
4. The Doctoral (PhD) Study Programme is meant for scientific research and independent creative activities within the framework of research and development. The graduate is awarded the academic title “**PhD.**“. The standard study period is 3 to 4 years.
5. Bachelor and Master study programmes are concluded by the defence of a diploma thesis before an examination board and a final state examination. PhD students must defend their scientific research in a dissertation thesis.
6. The academic year is divided into pre-semester, study, examination and vacation periods. The pre-semester period is used for second sessions examinations (re-sit) and enrolment to higher study levels. The study period is divided into the winter and the summer semester. The duration of one semester is 14 weeks.  
The last semester of the BSc or MSc programme has 10 weeks. The examination period follows the winter/summer semester study periods and usually last 5 weeks. It is compulsory for students, during the examination period following each semester, to attend at least one

examination in each subject. A student who has not registered for examination in due time is qualified as having failed.

**7.** There are two (2) forms of study attendance: 1) daily attendance and 2) distance attendance. For students registered as daily attendants the presence at seminars and exercises is compulsory.

**8.** International students are accepted only within the daily attendance form of study.

**9.** Registration for studies of specific study programmes and subsequent enrolment/matriculation of prospective students is regulated by law, in Art. 48 and Art. 49; Act No. 111/1998 on Higher Education in the Czech Republic.

**10.** The study and examination rules for Bachelor and Master study-programmes are issued in accordance with Article 17, subsection 1, letter f) of the Act No. 111/1998 Coll. on Higher Education Institutions (HEI) and on Modifications and Amendments of other Acts, and in accordance with Art. 18 of the CULS Prague Statute as an internal regulation of the CULS Prague.

**11.** Study and examination rules are compulsory for all students and for the academic staff and other employees taking part in the pedagogical activities carried out at the CULS, its faculties and higher education institutes within the framework of accredited study programmes.

**12.** Results of examinations are assessed by a scale ranging from: **A** (Excellent or 1); **B** (Very Good or 2); **D** (Good or 3); **F** (Failed or 4).

**13.** A student who has failed at the first examination session may present him/herself for another session. However, a maximum of two second-session examinations is allowed.

14. In specific cases a student may ask to follow an individual study programme after consulting with his/her Faculty Dean and/or study adviser.
15. Upon request a student may leave the CULS for another Higher Education Institution (HEI) in the Czech Republic or abroad, change faculties within the CULS, choose another study programme or study form. If and how such a request will be treated will be assessed and consequently decided upon by the Dean of the respective faculty.
16. In accordance with Art. 55 of the Czech Act on Higher Education, studies at the CULS are concluded by a final state examination.
17. Czech students and students within the Erasmus Exchange programme do not pay any tuition fees at CULS Prague. Czech students pay an enrolment fee of **CZK 550** at enrolment. Exchange students are exempt and do not pay an enrolment fee.
18. Students from Asia, Africa, North America and South America who enrol as degree students in one of the English Study Programmes offered by CULS Prague are expected to pay a tuition fee, which will be determined by the faculty in which they enrol. The tuition fee amounts to **EUR 2 000 per academic year for BSc programmes, EUR 3 500 for MSc programmes, and EUR 5 000 – EUR 7 500 for PhD programmes per academic year.** The tuition fee may be waived for students who come to study at CULS Prague within specific EU development programmes, such as Erasmus Mundus, Tempus etc. Foreign students from the above mentioned regions who wish to enrol in one of the Czech language study programmes are also exempt from paying a tuition fee.

For detailed information on CULS Prague Study and Examination rules consult your study adviser, or go directly to: [www.czu.cz/dokumenty/studijni-rad/en](http://www.czu.cz/dokumenty/studijni-rad/en)

# STUDY PROGRAMMES STRUCTURE

Study programmes are accredited for both daily and distance (combined) forms of studies

BSc undergraduates are awarded the university degree **Bc**.

MSc graduates are awarded the university degree **Ing**.

PhD postgraduates are awarded the university degree **PhD**

Highlighted study programmes/ fields of studies are taught entirely in English.

# SUMMER SCHOOLS AND INTENSIVE PROGRAMMES

## 1. Summer Schools

Since 1992 the Faculty of Economics and Management at CULS Prague has been running a summer school, which lasts 6 weeks (July – August), with the participation of the following universities from the USA: The Ohio State University, University of Missouri Columbia, Kansas State University, PennState and TexasTech.

Themes: Rural Sociology, Agricultural Economics, International Studies.

A similar summer school for students from Portugal has been organised for the past four years by the Faculty of Economics and Management.

Interested students from the USA please visit: [www.summerschool.cz](http://www.summerschool.cz)

Interested students from Portugal please visit: [www.iscte-summerschool.cz](http://www.iscte-summerschool.cz)

Summer Schools Director: **PhDr. Vlastimil Cerny CSc., MA**, [cerny@pef.czu.cz](mailto:cerny@pef.czu.cz)

## 2. Erasmus Intensive Language Course (EILC) - Czech Language

The Department of Languages at the Faculty of Economics and Management provides an intensive Czech language course designed specifically for Erasmus students coming to study in the Czech Republic. The course duration is four weeks, usually before the start of the academic year (August/September). It is focused on obtaining basic communicative, listening and writing skills as well as the ability to read and understand simple written texts and to gain step by step knowledge of the spoken language. At the same time the students get further information about the background of the Czech speaking culture.

Interested students may contact the course director:

**PhDr. Mgr. Milena Dvořáková**, [dvorakova@pef.czu.cz](mailto:dvorakova@pef.czu.cz)

**Visit at:** [www.pef.czu.cz/eilc/](http://www.pef.czu.cz/eilc/)

3. As a member of the Euroleague for Life Sciences (ELLS), students from CULS can also enrol in summer schools and intensive programmes organised by ELLS. Detailed information on ELLS summer schools and intensive programmes can be found at <http://www.euroleague-study.org/94131>

# BEFORE YOUR ARRIVAL

Studying abroad is an unforgettable experience which will benefit you throughout your life. Joining the academic community at CULS Prague will open new perspectives for your future professional career, give new insights into various areas of research and study and give you an opportunity to make new friends. Here is some initial information concerning the different steps you will have to take before enrolling as an exchange student.

## CHOOSING YOUR STUDY PROGRAMME

If you have decided to study with us you will be joining a demanding academic environment. You will find studies at CULS Prague challenging and of high quality. The staff of the International Relations Office is happy to welcome applicants for exchange student programmes from around the world. It is our goal to make your studies in the Czech Republic as profitable and rewarding as possible. We are always ready to provide you with help and advice. Here is some initial information you will need:

- Students who are applying through the EU mobility or LLP/ ERASMUS programmes must be nominated by the study adviser (coordinator) from their home university. They can choose only one major study programme, either from the BSc, MSc Study Programmes or Summer School/Intensive Programmes offered at CULS.
- Students should choose approximately five subjects per semester (approximately 10 subjects per academic year) in order to fulfil the requirements of 30 ECTS credits per semester (60 ECTS credits per academic year).
- The students will be granted academic credits through the European Credit Transfer System (ECTS). These credits will be recognised by your home university, provided it is integrated within the ECTS network of universities. The aim of the ECTS system is to promote student mobility between institutions and countries (see ECTS Information Packet).

### Step by step guide:

1. Fill in online and print out (2x) the Application Form (download from [www.czu.cz](http://www.czu.cz))
2. Fill in online and print out (1x) the Transcript of Records which details all your University

results prior to applying for study abroad. CULS international office and your home university will not consider your application without this transcript (download from [www.czu.cz](http://www.czu.cz))

**3.** Fill in online and print out (2x) the Learning Agreement (download from [www.czu.cz](http://www.czu.cz)) based on subjects chosen from our Study programmes curriculum. The Learning Agreement must be signed by 2 representatives from your University (Departmental and Institutional coordinator). Please note that your signed Learning Agreement must be sent back to your home university before you start your mobility.

**4.** Complete online and print out (1x) a Reservation for Accommodation (download from [www.czu.cz](http://www.czu.cz)) if you wish to be accommodated at CULS Dormitories. Due to a limited number of rooms we will accommodate preferentially students who send in their Reservation on time. In case that there is no more vacancy at CULS Dormitories, we will of course assist students to find alternative (private) accommodation.

**5. As soon as all above mentioned formalities are completed, your exchange study coordinator (ERASMUS coordinator) should send ALL forms (2x Application Form, 1x Transcript of Records, 2x Learning Agreement, 1x Reservation for Accommodation) by postal delivery to:** Czech University of Life Sciences Prague

International Relations Office

Kamycka 129

165 21 Prague 6 Suchbátka

Czech Republic

(Note: Send the documents also to the fax Nr: +420 224 382 070)

**The deadlines for submission of applications are:**

**15 June** for students wishing to come for the winter semester or a full academic year

**15 November** for students wishing to come for the summer semester

**6.** When the Application Form, Transcript of Records & Learning Agreement from your home university have been assessed, we will send you an official Letter of Acceptance from our university. When you arrive in the Czech Republic, your Learning Agreement will be confirmed and stamped and you will be able to send a copy to your home institution.

## ONLINE REGISTRATION

All incoming exchange students as well as international degree students must register in the CULS electronic online registration system before their arrival to CULS Prague (in August and September, i.e. before the start of the academic year). Subsequently they will receive an ID login and password from the CULS incoming student coordinator at the address:

**<http://hrochphpd.czu.cz/eng/erudio/login.php?do=prihlazaz>**.

Online registration can be accessed at:

**<http://prijimacky.czu.cz>**. In the online registration you will also be requested to register for a ISIC Student Card and electronic wallet UEP (for more information see section “Life at the Campus”)

## VISA REGULATIONS

Visa Regulations for incoming students:

Students from the EU do not need a visa. All students (also from EU) must register with the foreign police in Prague after their enrolment at CULS.

If you need a visa to get to the Czech Republic this is how you should proceed:

When you receive the Letter of Acceptance and a Confirmation of Accommodation apply for a student visa at the Czech Embassy or Czech Consulate in your country of origin. You will get visa application forms (in five main European languages) that are to be filled out with the help of the embassy personnel. There are to types of student visas: short term (up to 90 days), and long term (more than 90 days). Applications for both short term and long term visa must be submitted at the Czech Embassy or Czech Consulate in your country of origin. The short term visa is issued by the Czech Embassy or Czech Consulate in your country of origin and takes only 10 days to be processed. The long term student visa is issued by the Czech Ministry of Interior and takes up to 60 days to be processed.

## **For a student visa application you must have the following documents:**

1. A valid passport.
2. A Letter of Acceptance supplied by our university.
3. A Financial Agreement or written Confirmation that you are a beneficiary of study/research grant. You may need a letter from your bank with a statement assuring that you have sufficient financial means to fund your studies in the Czech Republic.
4. A Confirmation of guaranteed accommodation (this will be supplied by our university, provided you have chosen to be accommodated at CULS Halls of Residence).
5. A valid international health insurance from an insurance company which is legally authorised to provide services in the Czech Republic.
6. A Certificate of absence of criminal records from your country of origin (this document is compulsory and must be translated into Czech by a translator with an official stamp).

## **IMPORTANT NOTE:**

There is no chance to get a visa ad hoc, after your arrival in the Czech Republic! Foreign students who need a visa and have not made the necessary arrangements before coming to the Czech Republic will not be registered at CULS.

## **4. Health Insurance Provisions**

- Incoming students from the EU are entitled to the same health care as Czech citizens. You may consult [www.vzp.cz](http://www.vzp.cz) for additional information.
- Students from non EU countries, staying in the Czech Republic for less than 3 months should have a supplementary travel health insurance. They should get one before they leave their country of origin.
- Students from non EU countries, staying in the Czech Republic longer than 3 months (for a semester or an academic year) must contract an insurance with an insurance company in the Czech Republic or with an insurance company authorised by the Czech Embassy in their country of origin. Please consult with your study coordinator at CULS before you apply for a long term visa. Czech visa, or long term residence permit, will not be delivered if the insurance (for a semester or an academic year) is not recognised by the Czech Embassy.

# AFTER YOUR ARRIVAL

## 1. ARRIVING IN PRAGUE

### By airplane to Prague airport

Prague's Ruzyně Airport is located 15 km west of the city centre. You can make your way from the airport to our campus by city bus, airport shuttle, or taxi. CSA operates an airport shuttle bus to and from its office in central Prague with the only stop at Dejvická Metro station. It leaves every 30 minutes from 7:30 to 19:30. The shuttle costs CZK 60 for the 30-minute trip. Even cheaper is city bus No. 119, which brings passengers from the airport to the Dejvická Metro station. The bus ticket costs only CZK 32.-. The 119 bus ends at Dejvická, the travel time to Dejvická is about 30 minutes. At Dejvická, take bus number 107 or 147 to the bus stop Zemědělská univerzita. The stops are announced on the public address system on the bus.

### Coming by train

Passengers travelling to Prague by train come to two central stations: Wilsonovo - Hlavní nádraží (Wilson Main Railway Station) or nádraží Holešovice (Holesovice Railway Station). Both are on line C of the Metro system. Wilson's station is usually the terminus for trains from Paris, Frankfurt, Stuttgart, Zurich, Warsaw and Moscow. Holesovice station is for trains coming from Berlin, Dresden, Wien, Budapest and Zagreb. You can get to Dejvická by Metro Line C to station Muzeum and there you can transfer to the Metro Line A. At Dejvická, take bus number 107 or 147 to the bus stop Zemědělská univerzita. Coming by international bus You will arrive at the Bus Terminal Florenc, which is also on line C of the Metro system. Take a Metro train to Muzeum station and there you can transfer to the Metro Line A to last station Dejvická. At Dejvická, take bus number 107 or 147 to the bus stop Zemědělská univerzita.

### Picking up service

Many facilities in the Czech Republic are closed on weekends (Saturday and Sunday), so it is advisable to arrive on a weekday, if at all possible. It is much better to arrive early in the day, so that you have plenty of time to reach our campus. In specific cases we organise a "picking up service" (Buddy system). If you need arrival assistance let us know on time

when you will arrive and then some of our students will meet you at the airport, the train or bus station in Prague and accompany you to the university campus.

### **Accommodation before the start of the semester**

Students attending our “Orientation Week” will be accommodated in their allocated rooms upon arrival. If this is not possible, for example if the room is occupied by vacation residents, or it is being refurbished, temporary accommodation will be provided. You will be informed by the dormitory manager when to transfer to your permanent room. To check-in you need: your passport, one photograph, and to fill in some forms. You’ll have to pay a deposit of 3 500 CZK.

**Students are kindly requested to arrive during workdays, not on weekends or during holidays, in order to register and pay for their accommodation (payment for accommodation is made at CULS central cash desk, situated on the ground floor of the Study and Information Centre).**

## **2. ORIENTATION WEEK**

The orientation week takes place one week before the semester starts. It gives us the opportunity to welcome you to the Czech University of Life Sciences Prague. The programme includes campus tours and several social events, giving you the chance to meet new friends and settle in, before the first week of studies starts.

All new international students are invited to join the orientation programme. Details on the orientation weeks in the academic year 2013 – 2014 (organised in September 2013 & February 2014) will be available at our web page.

Incoming ERASMUS students can get information on the orientation week from CULS incoming ERASMUS student’s coordinator, Ing. Jitka Malatková, [malatkova@rektorat.czu.cz](mailto:malatkova@rektorat.czu.cz)

## **3. HOW TO ENROL IN MY COURSES**

Detailed information explaining the procedure for registering and for enrolment will be given during the orientation week. Please note: you will not be able to use university facilities until you have formally enrolled at the University.

#### 4. REGISTERING WITH THE FOREIGN POLICE OFFICE IN PRAGUE

When you have registered at our university, you must also register yourself with the foreign police office. Registration is compulsory for all foreigners, including EU citizens, staying in the Czech Republic for more than 3 months. You will be instructed about this matter also during the orientation week. Please note, that failing to register with the foreign police may cause trouble to you and to CULS Prague.

#### 5. INFORMATION ON THE ACADEMIC CALENDAR

The academic year is divided into two semesters.

Each semester is divided into:

12 week course period, during which the students attend 5 - 6 different course units.

3–5-week examinations period.

#### WINTER (AUTUMN) SEMESTER

##### Orientation week:

23. 09. 2013 – 27. 09. 2013

##### Course period:

Start 30. 03. 2013

End 06. 01. 2014

##### Examination period

Start 06. 01. 2014

End 09. 02. 2014

##### Winter holidays

Start 23. 12. 2013

End 05. 01. 2014

#### SUMMER (SPRING) SEMESTER

##### Orientation week:

05. 02. 2014 – 07. 02. 2014

##### Course period:

Start 10. 02. 2014

End 02. 05. 2014

##### Examination period

Start 05. 05. 2014

End 30. 06. 2014

##### Summer Holidays

Start 02. 07. 2014

End 24. 09. 2014

# MAP OF GULS PRAGUE

1. Rectorate Building – Institute of Tropics and Subtropics
2. Aula - Graduation Hall
3. Faculty of Agrobiology, Food and Natural Resources
4. Faculty of Forestry Sciences
- 4a. Faculty of Environmental Sciences
- 4c. University Centre of Environmental Sciences
5. Faculty of Economics and Management
6. Faculty of Engineering
7. Student Dormitory/Hall of Residence A
8. Student Dormitories/Halls of Residence BCD
9. Student Dormitories/Halls of Residence EFG
10. Student Dormitories/Halls of Residence JIH
11. Student Canteen (Mensa)
12. Faculty of Tropical Agrisciences,  
Lecture Halls of Faculty of Economics and Management
13. Sports Centre, Heated Swimming Pool
14. Department of Languages
15. Department of Veterinary Sciences
16. Greenhouses
17. Technical Laboratories
18. Round Hall Lecture Rooms
- 19.- 20. Departments of Plant and Crop production
21. Meteorological Survey Station
22. KB Bank & Staff Medical Centre
23. Teaching Pavilions
24. Cattle Breeding Trial Farmhouse
25. Study Information Centre (SIC),  
Central Library, University Cash Desk
26. University Garden Centre
27. Canine Behaviour & Training Centre

**COSTS OF ROOMS:** CZK 2 700.00 – 3 700.00 (approximately EUR 100, 00 - EUR 150, 00). Costs for accommodation include bed, pillow, blanket, sheets (for laundry service see below), heating, warm and cold water, local taxes and insurance.

Each room is equipped with basic amenities, i.e. writing desks and cupboards, reading lamps and cleaning equipment (broom, bucket etc.).

Rooms are allocated according to availability.

## 1. ACCOMODATION AND REGISTRATION

Provided that you have sent your Reservation for Accommodation form to CULS incoming students' coordinator, your room will be booked at CULS Halls of Residence. If there are no more rooms available, you will be notified on time, with an offer of alternative accommodation.

**CULS Halls of Residence registration office** is situated on the ground floor of the CULS Halls of Residence Management Building (next to Dormitories BCD), **opened only during workdays, Mon – Fri 8:00 – 15:00** It is closed on weekends on holidays.

**Students are kindly requested to arrive during workdays, not on weekends or during holidays, in order to register and pay for their accommodation** (payment for accommodation is made at CULS central cash desk, situated on the ground floor of the Study and Information Centre).

## **REFUNDABLE DEPOSIT: CZK 3 500**

This refundable deposit should be paid at the CULS Halls of Residence Cash Register Office, together with your accommodation and your room internet connection. In specific cases the payment of the deposit may be delayed for one month. The deposit will be fully refunded at the end of your stay, provided that no damage was made to the dormitory inventory. In specific cases the deposit may be used to pay for the last month of your stay. However, it is necessary to consult all such arrangements in advance with the CULS Halls of Residence management.

**INTERNET CONNECTION: CZK 162 (approx EUR 8,00 ) per month**

**LAUNDRY SERVICE:** You will be provided with a set of clean sheets at the start of your stay. Every two weeks you are entitled to have them washed at our laundry room, which is situated at the ground-floor of each dormitory. At each hall of residence there are also washing machines for students. You can ask for the key for the washing machine room at the reception of each hall of residence. The costs for using the washing machine will be deducted from your electronic wallet (see below in section CULS – ISIC Student Card and electronic wallet).

**ADDRESSES and PHONE NUMBERS (CULS Halls of Residence):**

A	– Kamýcká	933,	165 21 Praha 6 Suchdol,	Phone - 224 383 445 (reception desk)
JIH	– Kamýcká	1280,	165 21 Praha 6 Suchdol,	Phone - 224 383 538 (reception desk)
EFG	– Kamýcká	1281,	165 21 Praha 6 Suchdol,	Phone - 234 381 846 (reception desk)
BCD	– Kamýcká	1283,	165 21 Praha 6 Suchdol,	Phone - 234 383 382 (reception desk)

Visit the Dormitory web page at: [www.kam.czu.cz](http://www.kam.czu.cz)

**2. THE ISIC STUDENT CARD AND ELECTRONIC WALLET (UEP)**

You will fill in an application for an ISIC Student Card and electronic wallet ONLINE together with the registration in your studies (see section Before Your Arrival). You will need an ID login and password and will have to upload your passport photo into the electronic registration system. With an ISIC Student Card you can take your meals at the university dining hall without paying cash and at a reduced price (see below). The ISIC Student Card also functions as an electronic wallet (UEP) it can be re-charged at several charging stations throughout the campus. The costs for each meal are automatically deducted from the balance in your electronic wallet. The card also offers you access to the CULS library, to the internet pavilions and functions as a key that opens the main door of the dormitories. Costs for using the washing machine will also be deducted from your electronic wallet. Most on-campus shops and restaurants accept payments via media the ISIC Student Card and UEP.

You will have to pay an activation fee of 300 CZK (15 EUR) as well as an inscription fee of 250 CZK (10 EUR). You may also arrange a complex health insurance as an additional feature of your ISIC card. The ISIC Student Card is delivered after your arrival at the central student cash desk, situated on the ground floor of the Study and Information Centre (SIC).

### 3. MEALS

#### Lunch & dinner

CULS has a modern and spacious dining hall (Mensa) which offers lunch and dinners to students and staff. The dining hall is closed on weekends and during holidays. The Mensa does not offer breakfast service.

**Lunch service:** 11:30 14:00 (Choice of 5 different dishes)

**Dinner service:** 17:00 18:00 (Usually only 1 dish)

Reduced prices for meals (includes tea): from 21 to – 47 CZK (0.80 to 1.70 EUR)

Full prices for meals (includes tea): 56 to 86 CZK (2.50 to 3 EUR)

Soups, salads, soft drinks (Cola, Fanta etc.), coffee and desserts are extra.

#### Breakfast

There is also a small grocery shop on the ground floor of the Mensa which is opened during weekdays from 7:00 to 18:00. You may have your breakfast there (Closed on Saturdays and Sundays and during holidays)

### 4. HEALTH CARE

#### 4.1. EU Citizens

Legal regulations concerning medical care for EU students involved in mobility programmes, such as LLP ERASMUS, CEEPUS etc. stipulate that incoming students have free access to any necessary health care during their study/ research periods in the Czech Republic.

In very rare cases a student may be requested by the doctor to pay for treatment in advance. Medical care which is not urgent, such as dental repairs and cosmetic operations, is not included in the EU mobility programmes health care regulations.

Incoming students from the EU are entitled to the same health care as Czech citizens.

Before treatment they must present their EU insurance card AND a Certificate of insurance delivered by the Czech General Health Insurance Company (**Všeobecná Zdravotní Pojišťovna** or VZP.) This certificate is delivered free of charge at any VZP branch office. If you don't have this certificate you may have to pay (at least) CZK 600 for each visit at the doctor. There is a nominal fee of 30,- CZK to pay at each consultation.

(Note: Make photocopies of the certificate. They may come in handy).

#### **4.2. Non EU Citizens**

Students from non EU countries must have a supplementary travel health insurance, covering the entire period of their stay in the Czech Republic. They must make necessary provisions before they leave their country of origin. They also must get the above mentioned certificate of insurance from the Czech General Health Insurance Company. Students from non EU countries, staying in the Czech Republic longer than 3 months (for a semester or an academic year) must contract an insurance with an insurance company in the Czech Republic or with an insurance company authorised by the

Czech Embassy in their country of origin. Please consult with your study coordinator at CULS before you apply for a long term visa. Czech visa, or long term residence permit, will not be delivered if the insurance (for a semester or an academic year) is not recognised by the Czech Embassy.

## **EMERGENCY LINE 112 (Communications in English)**

**Emergency (365 days/24 hour service): Military Hospital Stresovice, Phone 973 203 777**

**On campus medics:**

**Generalist** (only in emergencies) Dr. Jirina Majerova, Phone 220 920 481; Mon, Tue, Thurs, Fri: 8:00 – 13:00; Wed. 13:00 – 18:00;

**Dentist:** Dr. Čadková ; Phone: (224 38) 3442 - Open Mon 7:30 15:00; Tue 7:30 17:00; Wed 7:30 12:00; Thurs 7:30 15:00; Fri 7:30 15:00;

**Hospital na Homolce** – Address: Roentgenova 2, Prague 5 (Bus Nr. 167 from Metro B station Anděl) Reception 24h service for EU/Czech insurance card holders; Phone: 257 272 522; Reception for Foreigners (Non EU insurance card holders); Phone: 257 272 144; [www.homolka.cz](http://www.homolka.cz)

**Private clinics:** Canadian Medical Centre  
Address: Veleslavinska 1, Prague 6; Phone  
235 360 133; [www.cmc.praha.cz](http://www.cmc.praha.cz)

**Medicover** – Address: Na Perštýně 10, Prague 1, Prague 1;  
Phone 234 630 111 or 603 555 006 (24h service) English, German, French, Spanish, Russian.

**DC Mediscan Chodov** – Address : Chodov Šustova 1930 Prague 11 (Metro C line, Station Chodov); Phone 267 090 812

**Pharmacies:** Medicine (with or without prescription) can only be purchased at a pharmacy (lékárna). There is a pharmacy near the CULS campus (Bus stop Internacionální, 10 min walk from the campus). You will find several pharmacies in Dejvice, Prague 6 (Vítězné náměstí, Dejvická 31, Na Hutích 13, Jugoslávských partyzánů 20) and there is a 24 h service at pharmacies in downtown Prague (Opletalova - Prague 1; Na Příkopě - Prague 1; Štefánikova - Prague 5.)

Pharmacies generally open Mon-Fri 8:00 - 18:00; Sat 8:00 - 13:00.

## 5. SPORTS FACILITIES

CULS Sports Centre provides compulsory as well as optional courses in physical education, including winter and summer courses in the Czech Republic and abroad.

Sporting Clubs organise, in co-operation with the Sports Centre, several competition and leisure-sports activities for students, staff, children and general public.

There is an indoor 25m swimming pool with an outside beach and sauna, two gyms, a body-building centre, two volleyball courts, a beach-volleyball court, a clay tennis court, an indoor tennis hall, a multi-purpose artificial lawn area, a grass football field, and an athletics track. You may also hire equipment and there is a ski service at one of the dormitories.

You will find out more if you go to [www.sportcentrum.czu.cz](http://www.sportcentrum.czu.cz) or contact the International Relations Office.

## 6. FINANCES

**Currency:** Koruna (plural koruny) or crown, abbreviated Kč (CZK in banks). Each crown is divided into 100 haléř or hellers. Bank notes (50, 100, 200, 500, 1000, 2000, 5000 CZK) bear a forgery-resistant silver strip and several watermarks. Coins in use are 1, 2, 5, 10, 20 and 50 CZK. The Czech crown is fully convertible.

**Current prices:** A meal at the cheapest pub will cost you around CZK 80 drinks not included. At a restaurant you pay CZK 150 to 350 for a complete menu. Drinks cost between CZK 25 and 75.

Clothes cost more or less the same as in other EU countries. The price of a ticket to the cinema is from CZK 120 to 150, tickets to a concert cost between CZK 350 and 1800, tickets for an opera between CZK 300 and 1500. Hotel prices in Prague are relatively high, between CZK 1700 and 5000. Renting a private room can also be quite expensive (CZK 7000 to CZK 14 000 a month).

The cheapest accommodation for incoming students is at the CULS Halls of Residence. At several supermarkets in Prague it is also possible to pay in EUR (return money only in CZK).

## 7. TRAVEL

**Public transports:** The public transport system in Prague is very cheap and reliable. For information about schedules and rates please consult [www.mhd-praha.cz](http://www.mhd-praha.cz).

You can buy tickets at automatic dispensers, at stationery shops, newspaper stands etc. You must validate them before starting your journey. They are valid for 75 or 90 minutes. Monthly, quarterly and year passes are available at sale outlets of the Prague Metropolitan Transport Authority (MHD). A monthly pass for students currently costs only CZK 230 (aprox. EUR 9). You will need a certificate that you are enrolled at CULS in order to benefit from this reduced student rate. The certificate is delivered by the International Relations Office (at your faculty or at the Rectorate).

**Taxis:** Be careful if you take a taxi in Prague. Taxi drivers in Prague have a reputation of being notoriously dishonest. Avoid hailing a taxi or taking a taxi from a taxi stand.

On the other hand telephone taxi companies tend to be honest and reliable. Here are some of them: AAA Radio Taxi: 222 333 222; City Taxi: 233 103 310; Halo Taxi: 244 114 411. When phoning, ask for the price to your destination.

**Bike:** If you plan to bring your mountain bike, that's fine with us (be sure to bring a solid lock with you.) There's plenty of bicycle paths in the countryside around the campus. But travelling by bicycle to or from the city centre is not at all recommendable. Prague is not a bicycle friendly place.

**Travelling outside Prague:** When you travel outside Prague you may use your own car (don't use your car in the city, it's not worth it) or the train, buses or eventually you may fly to your destination.

**Train:** Consult schedules and destinations at [www.cd.cz](http://www.cd.cz). For international informations phone: 840 112 113. Eurail Passes for students are popular with US students, who plan to visit other places in Europe as well. These passes must be bought in your country of origin. The Main Station is called Hlavní nádraží and you may reach it by Metro C (see public transport).

## 8. STUDENT ASSOCIATIONS

**CULS Student Union** (SU CZU) [www.suczu.cz](http://www.suczu.cz) (only in Czech)

**E-mail:** [su-czu@seznam.cz](mailto:su-czu@seznam.cz) Phone: +420 224 383 356

**Facebook:**

<http://www.facebook.com/pages/Studentsk%C3%A1-unie-%C4%8CZU/315323591857902>

**AIIESEC** is the World's largest student-run organization. Active in over 1700 universities across more than 107 countries and territories, our international platform enables young people to explore and develop their leadership potential for them to have a positive impact in society. In partnership with business and higher education, AIIESEC has over 60 years of experience in developing high-potential students into globally minded responsible leaders. AIIESEC's innovative development process consists of unmatched leadership experiences, international opportunities and a global learning environment. The CULS branch was founded in spring 2001 and has 12 active members.

<http://www.aiesec.cz/czu/>

**IAAS** International Association of students in Agricultural and related Sciences (IAAS) is an international non-profit and non-governmental student society headquartered in Leuven, Belgium.

It was formed to promote the exchange of knowledge and information among students and to improve the mutual understanding between countries and cultures.

Visit: [http://www.iaas.cz/index\\_uk.html](http://www.iaas.cz/index_uk.html)

The Department of Sports promotes several student sport clubs (**visit:** [www.ktv.cz.cz](http://www.ktv.cz.cz))

CULS Football Club

CULS Ski Club

CULS Swimming Club

## 1. STUDY AND INFORMATION CENTRE (SIC)

<http://www.sic.czu.cz/en/>

**SIC houses** the CULS Central Library and technical facilities, study and lecture rooms and a large Congress Hall, which serves as a venue for scientific conferences and symposiums. During the academic year lectures and courses are regularly held in the Congress Hall. At the ground floor of the SIC building you will find the Central Student Cash Register Office (OPENING HOURS 8:00 – 12:00 & 13:00 – 15:00).

There are ample study facilities with computer equipment on the premises of SIC, providing access to bibliographic databases and to the Internet. The Central University Library, now fully computerised, offers more than 100,000 volumes of scientific literature, textbooks and periodicals, which can be borrowed for home study. There is a cumulative catalogue of new acquisitions since 1990 available on line. The SIC has almost 400 titles of scientific journals and periodicals, most of which are available in the reading room. There is also a modern copy centre at your service in the library. SIC additionally supervises a two-shift operation of the computer laboratory at the JIH student dormitories for independent study.

### **Contacts:**

Head of the library section Ms Helena Cedikova,  
(224 38) 4 013, [cedikova@sic.czu.cz](mailto:cedikova@sic.czu.cz)

**CULS CENTRAL LIBRARY (SIC)** <http://www.sic.czu.cz/en/>

Opened Monday to Friday (closed on Saturday and on holidays)

Borrowing and returning books: 8:00 – 12:00 & 13:30 – 15:00

Large study and reading room (with access to internet): 8:00 – 20:00

Small study rooms: 9:00 – 18:00

Periodicals reading room: 8:00 – 12:00 & 13:30 – 15:00

Copy centre (room 236b): 8:00 – 12:00 & 13:30 – 15:00

Student Card centre: 8:00 – 12:00 & 13:30 – 15:00

## 2. CULS FARMS & ESTATES

### 1. CULS FORESTRY ESTATE (ŠLP Kostelec n. Č. I)

The Forestry Estate is situated in Kostelec nad Černými Lesy, a small town 40 km east of Prague. The Estate comprises about 7000 hectares of forests, including a large arboretum. Students may stay at the Estate for two to three weeks, after each semester. Accommodation is provided.

Contact: <http://www.slp.cz/english.htm>

### 2. CULS FARM ESTATE (ŠZP Lány)

The Farm Estate is situated in the village of Lány, about 30 km west of Prague. The Estate has nearly 3000 hectares of land. The Farm offers accommodation and teaching facilities for students from all faculties. It is used for experience and training as well as research. Classes are held in groups with teachers from the main campus. A number of students use the farm for work connected with their diploma or dissertation Thesis.

# PRAGUE AT THE CROSSROADS OF CULTURES

Prague, the capital of the Czech Republic, has been an important centre of culture and learning for over a thousand years. Its first university was established as early as 1348. It was the first university of its kind in central Europe. Famous European scholars of the late Renaissance, such as astronomers Tycho Brahe and Johannes Kepler, lived and worked in Prague. Throughout the 17th, 18th and 19th centuries many scholars and scientists of world renown held chairs at Prague's Charles University. In the late 19th and early 20th century Ernst Mach and Albert Einstein held chairs in the Department of Theoretical Physics at the German University of Prague. French, German and particularly Italian architects, sculptors and garden designers, have given Prague a unique cosmopolitan flair. The Old Town, Charles Bridge, the Small Quarter, Prague Castle, all these masterpieces of late Gothic, Renaissance and Baroque architecture have been carefully maintained and protected by successive generations of rulers and monarchs, keeping the historical centre of Prague virtually untouched and perfectly preserved. UNESCO has listed Prague's historical centre as one of the cultural heritages of mankind. Apart from being an attractive tourist destination, a centre of arts and culture, Prague is also a prominent centre for higher education. At a crossroad between East, West, North and South, it is the ideal destination for anyone, who wishes to be part of a truly global experience.

For further information about Prague please consult the following web sites:

**[www.prague.com](http://www.prague.com)**

**[www.prague.cz](http://www.prague.cz)**

# CZECH REPUBLIC BASIC INFORMATION

The Czech Republic is situated approximately in the geographical centre of Europe and has an area of 78,866 sq. km. It is a landlocked country 326 km from the Baltic and 822 km from Adriatic sea. It shares borders with Germany (810 km), Poland (762 km), Austria (466 km) and Slovakia (265 km). The highest point of elevation is the peak of Mt. Sněžka (1,602 m above the sea level) and the lowest point of elevation is near Hřensko where the River Labe leaves the Czech territory (117 m above the sea level). The Czech Republic is divided into 14 regions. The metropolitan region of Prague is by far the most developed. It belongs to the most developed regions within the EU. GDP per capita in Prague is markedly higher than in other regions. In 2003 the average GDP per capita (in current prices) in Prague was 226% of the average for the whole country. Of all of the regions of the new EU member states only Prague is clearly above the EU average, as far as the GDP and Purchasing Power Standard are concerned. Some sites in the Czech Republic listed in UNESCO'S World Heritage Fund: Prague, Kutná Hora, Český Krumlov, Telč, Lednice-Valtice area, Zelená Hora Church of St. John Nepomuk, Castle and gardens of Kroměříž, Holašovice, Litomyšl castle, Holy Trinity Column in Olomouc, Tugendhat Villa in Brno, The Jewish Quarter and St Procopius' Basili-  
ca in Třebíč.

**Total Population** (Census 2004): 10,221,000

**Urban Population** (Census 2004): Praha (1,171,000), Brno (368,000), Ostrava (311,000), Plzeň (163,000), Olomouc 101,000), Liberec (97,000), České Budějovice (95,000), Hradec Králové (95,000), Ústí nad Labem (94,000), Pardubice (88,000)

**Population density:** 130 inhabitants /sq. km

**Vital Indicators** (Census 2004): Live births per 1000 inhabitants 9.6;

**Deaths per 1000 inhabitants** 10.5

**Life expectancy** (Census 2003): Males 72.0 years; Females 78.5 years

## SHORT HISTORY OF THE CZECH LANDS

End of the 5th and beginning of the 6th century - arrival of Slavs in present-day Bohemia, Moravia and Slovakia  
 Second half of the 9th century - arrival of first Christian missionaries  
 9th century until 1306 - a gradual strengthening of the Czech state during the reign of the Premyslid dynasty

**1346-1378** - the peak in the prestige and power of the kingdom of Bohemia during the reign of Charles IV.

**Beginning of the 15th Century** – Hussite reforms movement

**1526** – Habsburg dynasty succeeds to the throne of Bohemia – the formation of a multinational empire

**1620** – Defeat of the Bohemian Estates at the Battle of the White Mountain, continued centralization of the Habsburg Empire.

**1918** – foundation of an independent state of Czechs and Slovaks (Czechoslovakia)

**1948** – Communist takeover

**August 1968** – Soviet led invasion of Czechoslovakia by Warsaw Pact countries brings an end to the „Prague Spring“ and the Communist Party’s attempt to build „Socialism with a human face“

**November 1989** – fall of the Communist regime

**1993** – Czech Republic founded after the Czechoslovakia is divided into the Czech Republic and the Slovak Republic

**May 1st 2004** – Czech Republic becomes member of the EU.

## 1. Bachelor in SUSTAINABLE USE OF NATURAL RESOURCES (SUNR)

Sustainability is a core issue in our modern world. The bachelor programme “Sustainable Use of Natural Resources” has been designed to meet the needs of students, at undergraduate level, to acquire comprehensive and relevant education in the sphere of sustainability. The study programme delivers both theoretical and practical knowledge of the various aspects of natural resources management and comprises compulsory, compulsory-optional as well as fully optional subjects, in which students acquire basic scientific knowledge about soil, water, atmosphere, plants and animals. Subjects include mathematics, statistics, physics, chemistry, geology, zoology and botany. These theoretical subjects are interlinked with practical subjects, such as pedology (soil studies), meteorology (studies of the atmosphere and the weather), hydrology and hydrogeology (studies of water and its relationship with soil), landscape architecture, grass management, gardening, forestry, genetics, cartography, environmental economy and the EU integration process. Studies are completed by the defence of a BSc Thesis and a Bachelor State Exam. Graduates are well prepared for further studies in the MSc programme “Natural Resources and Environment”. LLP Erasmus exchange students at BSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students’ coordinator (malatakova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation

**Programme organisation:** Faculty of Agrobiolgy, Food and Natural Resources  
www.af.czu.cz

**Programme duration:** 3 academic years (180 ECTS)

**Programme director:** Prof. Ing. Svatopluk Matula, CSc., E-mail: matula@af.czu.cz

**ERASMUS & Exchange students coordinator:**

Mgr. Marie Kafková

Phone: +420 224 384 577

Fax: +420 234 381 801, E-mail: kafkova@af.czu.cz

## Syllabus BSc Sustainable Use of Natural Resources (Programme Code B4147)

	Winter semester
	Summer semester

Subject Code	Year of study / Subject	ECTS
	<b>1st year</b>	
TAA11E	Applied Mathematics	5
TBA03E	Applied Physics	6
AEA01E	Zoology	6
ACA09E	Inorganic and Analytical Chemistry	6
APA35E	Fundamentals of Geology	5
	Foreign Language	5
RTA01Z	Physical Training (Sport)	2
ACA07E	Organic Chemistry	6
AEA32E	Principles of Agroecology	4
ABA14E	General and Special Agricultural Botany	6
AWA49Z	Practice (7 days)	3
	Foreign Language	5
AEA29E	Excursion, field training (2 days)	2
RTA01Z	Physical Training (Sport)	2
	<b>2nd year</b>	
APA38E	Soil Science	6
AMA11E	Fundamentals of Microbiology	6
EEA14E	Fundamentals of Economics I	5
AAA27E	Agricultural Systems	5
AAA25E	Basic Meteorology	6
ARA31E	Plant Production and Environment	6
ASA22E	Animal Production and Environment	6
	Compulsory optional subject I*	
	Compulsory optional subject I*	
AUA10Z	Practical Encyclopedia (10 days)	4
AUA26Z	Specialised Practice (25 days)	4
AWA26Z	Practical Bachelor Training (5 days)	5
AWA26Z	Bachelor Thesis	5

Subject Code	Subject Name	ECTS
<b>Compulsory optional subjects I</b>		
APA37E	Applied Cartography	6
ATA23E	Fundamentals of Turf and Lawn Management	5
AZA66E	Fundamentals of Landscape Architecture	4
LHX01E	Fundamentals of Forest Management	4
	Foreign Language	5
<b>3rd year</b>		
APA41E	Hydrology and Hydrogeology	6
AZA67E	Fundamentals of Orchards and Urban Design	6
AHA33E	Waste Handling	6
AZA68E	Establishment and Maintenance of Greenery	5
AWA27Z	BSc Thesis	9
<b>Compulsory optional subjects II*)</b>		
<b>Fully Optional subject **)</b>		
AHA30Z	Excursion and Field Training (2 days)	2
<b>Fully optional subject**)</b>		
AWA27Z	BSc Thesis	10
<b>Compulsory optional subjects II</b>		
AGA44E	Fundamentals of Genetics	6
EEA16E	Environmental Economics	6
AGA44E	Fundamentals of Genetics	6
EUA03E	Trade and Commerce	5
ERA16E	Management and Marketing	5
AZA21E	Fundamentals of Vegetables, Edible Mushrooms and Sprouts Production	4
AGA44E	Fundamentals of Genetics	6
EEA16E	Environmental Economics	6
EEE43E	EU Integration Process in Agriculture	5

\*) chosen subjects from list of Compulsory optional subjects I.

\*\*\*) chosen subjects from list of Compulsory optional subjects II or other subjects taught in English at the University.

## 2. Bachelor in AGRICULTURE AND FOOD

The BSc study programme Agriculture and Food represents the first level of university studies. The concept of the programme allows scientific understanding of biological principles in agriculture, orientation in current agricultural technology and basic knowledge of the quality and processing of agricultural products and food. The first half of the studies is focused on applied sciences and relationships between environment and agricultural practices, in both crop and animal production. In the second part of the study programme, students are encouraged to use their developing knowledge and skills to identify practical problems in the production systems, to meet the production quotas, economic and environmental goals, as well as the quality of agricultural products and food safety. Graduates acquire a very comprehensive and wide educational background, which provides good opportunities for finding employment on the labour-market in the area of agriculture and food production and processing, as well as the possibility of running ones own business venture.

LLP Erasmus exchange students at BSc level can enrol for one or two semesters. ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatakova@rektorat.czu.cz ) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation

#### Subjects of BSc State Examination (SE)

Subject of the SE	Subjects of the corridor
Crop and Soil Management	Agricultural Systems
	Field Crop Technology
Animal Husbandry and Production	Quality and Processing of Plant Products
	Animal Husbandry and Ethology
	Livestock Production
Defense of the Bachelor Thesis	Quality and Processing of Animal Products

### 3. Bachelor in ECONOMICS AND MANAGEMENT

The BSc study programme Economics and Management is designed for prospective students desiring to acquire undergraduate university education as economists and managers in an English speaking environment. Graduates of this programme will acquire standard theoretical knowledge in the areas of general economics and management theory, as well as in agricultural economics, enterprise economics, finance, financing, accounting and management. They will learn to understand concepts and methods that correspond with job requirements for executive positions in production, services, commerce, public administration, finance and insurance sectors. They will also acquire basic knowledge of the fundamentals of law, fundamentals of statistics, operation research and informatics. Their knowledge will be enhanced with the fundamentals of animal production, fundamentals of psychology, political science, sociology and philosophy. Graduates will be qualified for employment at various posts in management, trade, accountancy, banking, in private firms and state institutions. The diverse nature of agribusiness sector also provides many career opportunities. Graduates are well prepared for the follow up MSc programme “Economics and Management”. LLP Erasmus exchange students at BSc level can enrol for one or two semesters.

## 4. Bachelor in BUSINESS ADMINISTRATION

**NEW**

The BSc study programme of Business Administration is designed for prospective students desiring to acquire undergraduate university education in an English speaking environment. Graduates of this programme will have acquired standard theoretical knowledge in the areas of general economics and management theory, as well as in commercial and civil law, accounting, psychology and ethics in business, politics, business economics, investment and financing.

The study programme prepares students for a career in business activities where they can apply their training in economics and management. Graduates will be qualified for employment at various posts in management, trade, accountancy, banking, in private firms and state institutions. They will be well versed in market environment and in the administration and management of all types of business. Graduates are well qualified to work both at home and abroad in local and regional government administration or organisations, as well as in private enterprise.

They will learn to understand concepts and methods that correspond with job requirements for positions in administration, management, commerce and marketing. The diverse nature of agribusiness sector also provides many career opportunities. Graduates can progress the follow up MSc programmes.

The study programme is taught entirely in English. Faculty of Economics of CULS Prague cooperates with leading European universities, such as University College Cork, Wageningen University, Newcastle University, Humboldt University in Berlin, the University of Plymouth, the University of Malaya Kuala Lumpur, ISCTE Business School, the University of Guelph, the University of Missouri, Chonnam National University and others. Foreign lecturers from partner universities are involved in organizing and teaching in this programme.

### **Admission regulations:**

Applicants enrolling as **degree students** are expected to pay an **Administration study fee amounting to 10 000 CZK per academic year.**

Electronic application for degree students of this study programme is available at **<http://prijimacky.czu.cz/>**. Signed application forms must be submitted together with confirmation of payment to the Study Office (Students who have completed secondary education in the Czech Republic or students who have finished nostrification) or International Relations Office (International Students applying to Lifelong Learning Programme - students without completed nostrification) before **31. March 2013**.

ERASMUS exchange students at BSc level can enrol for one or two semesters of studies and do not pay the above mentioned Administration study fee. ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (**[malatakova@rektorat.czu.cz](mailto:malatakova@rektorat.czu.cz)**) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation .

## 5. Bachelor in INFORMATICS

Information technology has become an integral part of modern life. There is an ever increasing demand for qualified IT specialists for enterprises, public and private administration and government agencies. The BSc programme “Informatics” gives prospective students a unique chance of acquiring undergraduate university education and corresponding professional skills for employment in the IT sector. Graduates of this programme are well prepared for more advanced studies in the MSc study programme “System Engineering and Informatics”. LLP Erasmus exchange students at BSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students’ coordinator ([malatakova@rektorat.czu.cz](mailto:malatakova@rektorat.czu.cz)) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

Admission regulations for degree students: Applicants enrolling as **degree students** are expected to pay an administration study fee of **10 000 CZK per academic year**.

**Programme organisation:** Faculty of Economics and Management

[www.msc.pef.czu.cz](http://www.msc.pef.czu.cz)

**Programme duration:** 3 academic years (180 ECTS)

**Programme director:** PhDr. Vlastimil Černý, CSc, MA; E-mail: [cerny@pef.czu.cz](mailto:cerny@pef.czu.cz)

**ERASMUS & Exchange students coordinator:**

## 6. Bachelor in GAME MANAGEMENT

Game management and hunting have a long tradition in Central Europe. In this specialised BSc study programme students will get acquainted with game management and hunting as a social phenomenon, based on Czech know-how and international experience. Subjects include general ecology, veterinary care of game, care of game and environment, fishery and fishpond management. Students learn the fundamentals of zoology, chemistry, dendrology and biometrics. The acquired knowledge and skills can be applied in socio-economic and natural conditions of various countries, including regions where hunting is restricted to commercial purposes. The programme consists of compulsory and optional subjects. During their studies, students prepare their bachelor thesis in game management and hunting. Graduates must successfully pass all exams and defend their bachelor thesis. Students are trained to apply their acquired theoretical knowledge in practice, taking responsibility of game management in private forestry enterprises, or in national and international forestry and game management institutions. LLP Erasmus exchange students at BSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatakova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation

## 7. Bachelor in FORESTRY

The specialised BSc study programme in Forestry is designed for graduates from specialised secondary schools and/or vocational forestry schools who wish to acquire university education in forestry and related sciences. Entrance exams consist of mathematics and English. Subjects include fundamentals of forestry botany, soils sciences, chemistry, dendrology and biometrics, forest protection, ecology and forestry economics. The acquired knowledge and skills can be applied in socio-economic and natural conditions of various countries. The programme consists of compulsory and optional subjects, as well as several 2 – 4 days Field Seminars. During their studies, students prepare their bachelor thesis, with themes selected from a list of recommended areas of specialisation related to forestry. Graduates must successfully pass all exams and acquire the prescribed number of credits per semester. Studies are concluded by a State Examination and the defence of a bachelor thesis. Students are trained to apply their acquired theoretical knowledge in practice, taking responsibility of forestry management in private forestry enterprises, or in national and international forest management institutions. LLP Erasmus exchange students at BSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator ([malatakova@rektorat.czu.cz](mailto:malatakova@rektorat.czu.cz)) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation

## 1. Master in ECONOMICS and MANAGEMENT

The study programme is open for students having BSc degrees in Economics or Business. The most important consideration for applicants is an interest in continued study and intensive research in some area of economics with the minimum of prerequisites for admission to the programme. A strong background in economics and quantitative methods and good command of both written and spoken English are the most important prerequisites for applicants. Graduates are well equipped for national and international positions in the civil service sector, banking, research institutes and international development institutions. They also have good career prospects as managers in business and agribusiness. LLP ERASMUS exchange students at MSc level can enrol for one or two semesters of studies.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatakova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

***NOTE:** The MSc in Economics and Management is a Double Degree (DD) Study Programme with EU partner Universities (Cranfield University UK, Wageningen University NL, Grenoble Business School, Catholic University Lyon, both France). Local degree students have the option to study for a specific time period at CULS and at one of the above mentioned partner universities (generally studies at a partner university last 1 semester or max. 1 academic year) and graduate with 2 university degrees – 1 from CULS Prague and 1 from one of the EU partner universities. DD studies are not open for exchange students, but only for degree students (complete MSc diploma studies). The DD study option is not available for LLP ERASMUS exchange students.*

Admission regulations for degree students: Applicants enrolling as degree students are expected to pay an administration study fee of 15 000 CZK per academic year.

## 2. Master in INFORMATICS

The study programme is open for students with a BSc degree in a relevant subject area and for students desiring to acquire advanced knowledge and professional skills in Systems Engineering and Informatics Management. Graduates of this programme are qualified to understand and apply advanced principles of logical and functional programme and have detailed knowledge of object approach to a data flow analysis of user needs analysis and of the object design and implementation of information systems. They understand advanced principles on the basis of enterprise and geographical information systems design, modern methods for internet application design, methods of information tools and data collections quality measurement and are able to evaluate quality on the objective level. Graduates will be well prepared for leading positions in the ICT sector and well equipped for national and international positions in the sectors of banking, commercial enterprises, public administration, research institutes and multinational firms. LLP Erasmus exchange students at MSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatakova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

### 3. Master in EUROPEAN AGRARIAN DIPLOMACY

The MSc study programme **European Agrarian Diplomacy** is designed for students having a BSc degree in Economics or Business, or other relevant BSc diplomas. It provides students with advanced theoretical and applied knowledge in economics, international relations, foreign policy, management and marketing, law regulations and also provides 3 semesters of French language. Several subjects are taught by guest professors from partner universities in the EU and from Canada. Graduates are well prepared to work at relevant national and international agencies, e.g. Czech Ministry of Foreign Affairs and / or EU Agrarian Diplomacy Commission, etc. The programme includes courses in World Economics and its Institutions, Diplomacy, World Business with Commodities, European Integration, World Agriculture Economy, Foreign Policy and International Relationship, Legal Regulations, Marketing Management and Strategic Management. LLP Erasmus exchange students at MSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator ([malatakova@rektorat.czu.cz](mailto:malatakova@rektorat.czu.cz)) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

**Admission regulations:** Applicants enrolling as **degree students** pay an administration study fee **10 000 CZK per academic year**. Electronic application for degree students of this study programme is available at <http://prijimacky.czu.cz/>. Signed application forms must be submitted together with confirmation of payment to the Study Office (Students who have completed secondary education or bachelor degree in the Czech Republic or students who have finished nostrification) or International Relations Office (International Students applying to Lifelong Learning Programme - students without completed nostrification) before **30. March 2013**.

## 4. Master in NATURAL RESOURCES and ENVIRONMENT

The International MSc Programme “Natural Resources and Environment” delivers advanced theoretical and professional skills focusing on the sustainable use and management of natural resources, such as soil, water and air, as well as the positive and negative impacts of agriculture and forestry on these resources. The programme is closely linked, as a Double Degree Programme (DD), to the “Natural Resources and Environment” MSc programme taught at the University of Natural Resources and Life Sciences (BOKU) Vienna. This means that graduates may, under certain conditions, receive a Master diploma at CULS Prague and at BOKU Vienna. The duration of the programme is two years. The first year of studies consists of theoretical subjects, including Environmental Analytical Chemistry, Agrometeorology and Applied Statistics. It is followed by subjects which include Soil and Water Relationship, Soil and Chemical Relationship, Soil and Plant Relationship, Agri and Environmental Microbiology and Water Resources Management. These subjects are compulsory for all participating students. The compulsory subjects in the second, third and fourth semesters are combined with compulsory optional subjects I and II, e.g. Hydrology for NRE, Crop and Irrigation Systems Management, Soil Taxonomy, Survey and GIS, Water in Landscape, and Agro-materials. Students may also choose subjects taught in English (as many as desired) from the recommended optional subjects or from all offered subjects. The programme is designed as a follow up to BSc undergraduate studies. The study is completed by an MSc thesis, which students begin to work on in the second semester of the first year. The topic is selected by students themselves from any of the compulsory and compulsory optional subjects. The student is guided by his/her supervisor and the department responsible for the selected subjects.

LLP ERASMUS exchange students at MSc level can enrol for one or two semesters of studies, however are not eligible for the DD study option, taught at the University of Natural Resources and Life Sciences Vienna.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator ([malatakova@rektorat.czu.cz](mailto:malatakova@rektorat.czu.cz)) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

\*) Chosen subjects from Compulsory optional subjects I

\*\*) Chosen subjects from compulsory-optional subjects II or other subjects taught in English at the University.

\*\*\*) Chosen subjects from fully optional subjects or other subjects taught in English at the University.

### Subjects of MSc State Examination (SE)

Natural Resources and Environment (AMN)	
Soil and Environment	Soil and Chemical Relationship
	Soil and Plant Relationship
	Soil Conservation and Protection
Water and Environment	Hydrogeology for NRE
	Water in Landscape
	Soil and Water Relationship
Atmosphere, Biosphere and Environment	Advanced Meteorology
	Agricultural and Environmental Microbiology
	Agricultural Ecology

## 5. MSc Natural Resources Management and Ecological Engineering (AMM) MSc full time Joint Degree Program between CULS and BOKU

**NEW**

Natural Resources Management and Ecological Engineering (NARMEE) as a joint degree program follows the double degree program Natural Resources and Environment (NRE) which has been successfully taught in cooperation with BOKU Vienna. Program is drawn up to enable students to get best level of knowledge and skills by taking specific subjects at CULS or BOKU and combining them. Students can freely choose optional and fully optional subjects from the offer of both universities.

For students and their future engagement there are important more practical subjects focused on the protection and remediation of soils, waste water treatment, GIS, or management of protected areas. Program contains practicum, excursions and semester projects.

Diploma thesis (DT) has to be completed under supervision of the supervisor of home university and co-supervisor from the partner university. Defence of the DT takes place at the home university in front of the commission composed of teachers from both universities.

LLP ERASMUS exchange students at MSc level can enrol for one or two semesters of studies, however are not eligible for the DD study option, taught at the University of Natural Resources and Life Sciences Vienna.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator ([malatakova@rektorat.czu.cz](mailto:malatakova@rektorat.czu.cz)) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

**Programme organisation:** Faculty of Agrobiolgy, Food and Natural Resources

## 6. Master in SUSTAINABLE AGRICULTURE AND FOOD SECURITY

The MSc programme Sustainable Agriculture and Food Security provides prospective students with a detailed understanding of sustainability in agriculture and food production. Students will be able to determine key characteristics and processes in agricultural systems, and critically evaluate environmental and social aspects of agricultural production and food security. Comprehensive knowledge of agriculture and food related sciences, i.e. biochemistry, plant and animal physiology and other, enables students to further advance in their scientific understanding and identification of areas for application of advanced technology in agriculture and food production. The wide offer of optional subject allows students to acquire a high level of specialisation and relevant skills in their particular area of interest. Graduates are well prepared for employment as executives, managers and specialist in various profit and non-profit institutions, governmental agencies, international agri-food companies and enterprises, as well as in research institutions.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator ([malatakova@rektorat.czu.cz](mailto:malatakova@rektorat.czu.cz)) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

**Programme organisation:** Faculty of Agrobiology, Food and Natural Resources

ADA27E	Rabbit Production	5

#### Fully optional subjects

Selected subject taught in English in a Study Programme offered at CULS

#### Subjects of MSc State Examination (SE)

Subject of the SE (corridor)	Subjects of the corridor
Crop Sciences	Plant Physiology
	Soil and Plant Relationship
	Crop Management Systems
Animal Sciences	Animal Physiology
	Livestock Management
	Management of Reproduction in Livestock
Food Quality and Safety	Food Chemistry
	Food Quality and Food Safety
	Food, Beverages and Food Additives

## 7. Master in FORESTRY, WATER and LANDSCAPE MANAGEMENT

This MSc study programme has been designed for students with a BSc degree in Forestry Sciences, Landscape Sciences, and Ecological or Environmental Sciences, or with a BSc degree from a similar subject area. The programme delivers advanced theoretical and practical knowledge in forestry, water and landscape management for future professionals. Subjects include world forestry, forest communities, conservation, dissemination, water management, desertification and floods, technical measures and land improvement, revitalisation of the forest and landscape ecosystems. Students will get acquainted with economic issues, characteristic for forest management and landscape revitalisation, according to biotic and abiotic factors, they will understand issues related to forest industry, forestation and reforestation, sustainability, the influence of air and water pollution on forests, water and landscape etc. The programme consists of compulsory and optional subjects. Students can participate in solving real environmental and landscape problems, managing natural resources and policymaking. Graduates of this programme can also apply their knowledge, using their highly specialised skills, for solving problems in the areas of research and innovation. They can apply new findings and methods and integrate them in various areas of practical applications. They can work independently in small and medium size enterprises, or find jobs as heads of creative teams at intermediate and top management levels, state environmental agencies, administrative, international organizations and NGOs. LLP Erasmus exchange students at MSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatakova@rektorat.czu.cz ) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

## 8. Master in LAND and WATER MANAGEMENT

The MSc Land and Water Management is open for graduates from the BSc programme Landscape Engineering, or for BSc graduates with a solid background in mathematics, civil engineering and environmental sciences, desiring to acquire advanced knowledge and professional skills in land and water management. The entrance examination consists of English and a knowledge test concerning basic facts on water and land management, at bachelor level of study. Studies consist of compulsory subjects and research oriented field exercises. Their specialized knowledge is enhanced by applied statistics, GIS, management and economics, environment law and policy. Students can participate in solving real landscape and water related situations, flood management, revitalisation and restoration technology, ecology and policymaking in land and water management. Graduates are well qualified to apply their professional knowledge, using their highly specialised skills, for solving problems in the areas of research and innovation. Graduates can choose to continue their studies and research in a relevant PhD programme. They will find good opportunities for jobs in the sectors of environmental management, civil engineering, project planning companies, national and international organisations etc.

LLP Erasmus exchange students at MSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator ([mala-takova@rektorat.czu.cz](mailto:mala-takova@rektorat.czu.cz)) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

ZXX24Z	Workshop for LWM IV	1

## 9. Master in ENVIRONMENTAL MODELLING

The MSc Environmental Modelling study programme is opened for students with a BSc degree in a relevant subject area, desiring to acquire advanced knowledge and professional skills in description of environmental processes focused on modelling of pollutant and contaminant transport in different environments, transport processes in atmosphere, soil, groundwater and surface water. The entrance examination consists of English and a knowledge test concerning mathematical modelling at bachelor level of study. All process description is combined with applied mathematics and informatics. The graduate will be prepared for the position as modeller and engineer of environmental processes within both national and international institutions. The study programme is taught in cooperation with the Faculty of Mathematics and Physics Charles University Prague, Czech Technical University Prague, the Institute of Thermomechanics of the Czech Academy of Sciences and the Danish Hydraulic Institute (DHI). Strong emphasis is given to research activities and in the preparation of an MSc thesis. Students are well prepared for analyzing the important environmental processes and focus on the application of various techniques for their modelling. Application forms for the 1st year of studies must be submitted by 15 May 2012. LLP Erasmus exchange students at MSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatakova@rektorat.czu.cz ) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

**Programme organisation:** Faculty of Environmental Sciences

www.fzp.czu.cz

**Programme duration:** 2 academic years (120 ECTS)

**Programme director:** prof. Ing. Pavel Pech, CSc.

E-Mail: pech@fzp.czu.cz

**ERASMUS & Exchange students coordinator:**

Ing. Helena Michalkova

Faculty of Environmental Sciences

## Syllabus MSc in Environmental Modelling (Programme code N3914)

	Winter semester
	Summer semester

Subject Code	Subject Name	ECTS
<b>1st year</b>		
ZVX01Z	Introduction to Environmental Modelling	1
ZGX08E	Mathematics for Environmental Modelling	5
LHX01Z	Computer Modelling I.	4
ZVX08E	Environmental Hydrology	6
ZVX09E	Computational Hydraulics	6
ZGX09E	Geochemistry	4
ZVX07E	Physical - Chemical Aspects of Processes in Environmental	4
LHX04E	Computer Modelling II.	5
ZVX10E	Groundwater Hydraulics	5
ZVX11E	Experimental Methods in Fluid Mechanics	5
ZVX12E	Numerical Methods	5
ZVX13E	Hydraulic Modelling	5
<b>2nd year</b>		
ZVX14E	Hydrological Modelling	5
ZGX11E	Random Processes	5
ZVX15E	Transport of Contaminants in Atmosphere	5
ZVX16E	Applied Hydrogeology	6
ZOX01E	Environmental Hydrogeology	5
ZVX02Z	Semestral Project	3
ZVX17E	Flow in Atmospheric Boundary Layer	6
ZVX03Z	Applied Hydroinformatics	5

## 10. Master in NATURE CONSERVATION

The MSc in Nature Conservation study programme is opened for graduates from the BSc programme Applied Ecology, or BSc graduates with a background in ecology, biology and environmental sciences, desiring to acquire advanced knowledge and professional skills in nature conservation. The entrance examination consists of English and a knowledge test concerning basic facts of ecology at bachelor level of study. Students acquire comprehensive and profound theoretical and practical knowledge in biological and ecological areas (geology, zoology, hydrobiology, botany, dendrology, genetics, basic ecology and environment ecology) evolved by, e.g., conservation biology, biodiversity conservation, plant and animal ecology and applied hydrobiology. They acquire advanced knowledge on the diverse methods of conservation of the biosphere, water and landscape ecology, reclamation, watercourse revitalization, soil protection, ecological stress and sanitation technology, game management and environmental assessment. LLP Erasmus exchange students at MSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malakova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

**Programme organisation:** Faculty of Environmental Sciences

ZEX11E	Protected Areas Management	4
ZOX01Z	Palaeoecology	3
ZEX03Z	Conservation at the Global Scale	3
ZXX17Z	Workshop IV	1

## 11. Master in TECHNOLOGY and ENVIRONMENTAL ENGINEERING

The study programme is designed for BSc graduates with a strong background in technology and engineering. BSc diplomas in a field related to engineering and environment are accepted as appropriate education background. Subjects include agricultural engineering, road and urban transport, technology and equipment for waste management, technology and equipment for building constructions, trade and business in machinery and information and control technology in agrifood complexes. The programme consists mostly of compulsory subjects. The study programme delivers advanced knowledge in core engineering subjects. The acquired knowledge is complemented with basic disciplines of ecological and environmental sciences. The interdisciplinary relations between machinery and environment are also covered. In the course of their studies, students prepare their MSc thesis in the field of environmental engineering. A prerequisite for graduation is the successful passing of all required exams and the presentation and defence of a thesis. The graduates are well prepared for national and international positions in industry, civil services, business dealing with machinery, and technical development. LLP Erasmus exchange students at MSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatakova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

## 12. Master in SUSTAINABLE RURAL DEVELOPMENT IN TROPICS AND SUBTROPICS

This programme has been designed for graduates of the BSc programme Agricultural Specialisation, or BSc graduates with a solid background in biology, mathematics, agricultural or environmental sciences. The programme focuses on rural engineering, water and natural resources management, environment conservation and agricultural production, crop and animal production in the tropics and subtropics, rural economy, food and non-food technologies, education of rural population in developing countries and alternative energy resources. The acquired advanced knowledge and skills will enable the students to manage sustainable utilization of natural resources, including local human and energy resources, alternative agricultural production, non-traditional food production and processing industries and the profit from available services. The graduates have sound professional knowledge of agricultural and environmental technology, using of renewable energy resources, farm management, and project management, management of organizations and principles of socio-economic sciences. They understand theories, concepts and methods relevant to sustainable development in tropical rural areas. Graduates will be well prepared for leading positions in management of rural communities in developing countries of the tropical and subtropical regions, rural educational systems and research in relevant sectors of rural economy. LLP Erasmus exchange students at MSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatakova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

IUI62E	Farm Waste Management	5

### 13. Master in TROPICAL FORESTRY AND AGROFORESTRY

This MSc study programme has been designed for BSc graduates in Forestry and Agricultural Specialisation. BSc graduates with a solid background in biology, forestry and environmental sciences, desiring to acquire advanced professional knowledge in forest management in tropics and subtropics are of course welcomed. LLP Erasmus exchange students at MSc level can enrol for one or two semesters. The students studying courses of TFA are prepared for their professional missions in tropical and subtropical countries in the field of forest management, agroforestry and wood science. A great emphasis is also put on the field of agriculture and rural development, which is very often closely connected with forest management. Students will get the basic knowledge about the whole agro-forestry sector in these countries, and also the bases of sustainable use and protection of tropical forest. The graduates should be able to practically use this knowledge to the development of sustainable forestry in the third world countries.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatakova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

**Programme organisation:** The programme is jointly organised by the Faculty of Forestry and Wood Sciences (FFWS) [www.fld.czu.cz](http://www.fld.czu.cz) and the Faculty of Tropical Agrisciences (FTA) [www.its.czu.cz](http://www.its.czu.cz)

**Programme duration:** 2 academic years (120 ECTS)

**Programme directors:** Assoc. Prof. Ing. Jiri Remes (FFWS); [remes@fld.czu.cz](mailto:remes@fld.czu.cz)  
Dr. Bohdan Lojka (FTA) [lojka@its.czu.cz](mailto:lojka@its.czu.cz)

## 14. Master in ANIMAL AND FOOD SCIENCES IN TROPICS AND SUBTROPICS

The programme is opened for BSc graduates in study areas such as Animal Production, Crop Production and Agricultural Specialisation. BSc graduates with a solid background in biology, zoology, genetics and plant sciences are of course also welcomed. Students will acquire advanced knowledge of animal production, animal husbandry, animal nutrition and animal product processing in the tropics and subtropics. Special focus is given on rural development in TS, together with safety and security in the food chain. Graduates will be able to apply their acquired professional knowledge and skills in animal production and the food processing industry in the entire agrarian sector, finding new and up to date solutions to problems in breeding and nutrition, as well as product and waste management. They will also acquire a solid background in norms and standards, as well as legal guidelines, associated with animal breeding in the tropics and subtropics. Graduates will have advanced knowledge in theoretical agronomical and veterinary disciplines, based on the current state of scientific knowledge. LLP Erasmus exchange students at MSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatkova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

**Programme organisation:** Institute of Tropics and Subtropics

IAI50E	Domestic Animal Nutrition and Feeding in TS II. (monogastric)	5
AGI04E	Genetics and Breeding of Livestock	6
IAI31Z	Scientific Seminar	1
IXI04Z	Diploma Thesis – Data Analysis	5
IAI51E	Small Farm Animal Husbandry in TS II. (sheep and goats; crossbreeding)	5
IAI52E	Hygiene and Processing Technologies of Meat Production in TS	5
IAI31Z	Scientific Seminar	1
IXI05Z	Diploma Thesis – Submission	15
	<b>Optional subjects</b>	
RTX10Z	Winter Sports	2
AVI07E	Management of Livestock Reproduction	5
AGI06E	Molecular Genetics of Animals	5
IAI54E	Compound Feed Production and Feed Additives	5
ICI29E	Quality, Storage and Processing of Plant Products	5
IEI03E	Development and Poverty Reduction Strategies	5
IAI03E	Food Quality and Certification	5
IAI55E	Game Utilization in TS	5
ICI19E	Tropical Pastures and Fodder Crops	5
IAI56E	Comparative Animal Nutrition	5

## 15. Master in WILDLIFE MANAGEMENT IN TROPICS AND SUBTROPICS

The study programme offers BSc graduates (preferably with a strong background in animal sciences) further education in the field of biodiversity preservation and management of wild animals in tropics and subtropics. Studies focus on improving theoretical knowledge in the main educational areas, as well as on practical farm management, ranching, management of development projects oriented to biodiversity preservation, management of wild animals and sustainable use of natural resources in tropics and subtropics. Graduates have a critical awareness of the problems relating to their area of study, and interactions with other areas, such as zoology, physiology, genetics and ethology. They have advanced knowledge of the principles of animal science as well as fauna conservation. They acquire professional skills in the field of wildlife management in tropical and subtropical areas and systems support. They are able to make decisions as heads of creative teams at the intermediate and top management level. LLP Erasmus exchange students at MSC level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatakova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

## 16. Master in TROPICAL CROP MANAGEMENT AND ECOLOGY

The programme is open for BSc graduates with a strong background in crop management and/or ecology. Subjects include agroforestry, fruit production and viticulture, as well as core subjects such as botany, chemistry and agriculture ecology. Emphasis is given on advanced studies in crop production and environmental impact in tropical and subtropical agroecosystems. Students acquire advanced knowledge in production, processing and commercialization of tropical and subtropical crops, agroecological systems of farming in tropical and subtropical areas as well as scientific disciplines dealing with biodiversity, genetic resources, protection and conservation of tropical and subtropical plant ecosystems. They can use certain research methods and apply various exact procedures based on advanced theoretical knowledge of biology, genetics, physiology, plant protection etc. Students of “Tropical Crop Management and Ecology” will be well prepared for their professional career in tropical and subtropical countries in the fields of agronomy and agroecology. LLP Erasmus exchange students at MSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students’ coordinator (malatakova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

## 17. Master in INTERNATIONAL ECONOMIC DEVELOPMENT

The MSc programme International Economic Development has been designed for graduates of the BSc programme Agricultural Specialisation, or for BSc graduates with a solid background in economics, international relations and agricultural or environmental sciences. The programme offers advanced studies in management and international cooperation with developing countries and meets the goals of the Millennium Development Programme (MDP), approved by the UN General Assembly in September 2000. Students acquire advanced knowledge and professional skills as well as critical awareness of the problems relating to their area of studies and interactions with other areas, such as development economics, international trade and marketing, econometrics, sociology, rural development, project management, rural extension and international financing. Graduates will be well prepared for a professional career in developing countries, in the agro-industry sector, in the service sector, in the processing industry, in education and jobs related to international and non-governmental organizations. Their specialised knowledge is enhanced by basic knowledge of international developmental organizations and NGO, microfinancing, specifics of regional studies of African, Asian and Latin American regions, international law, diplomacy and other social sciences. LLP Erasmus exchange students at MSc level can enrol for one or two semesters.

ERASMUS students apply through the CULS ERASMUS Incoming students' coordinator (malatakova@rektorat.czu.cz) by submitting the standard documents, i.e. Application Form, Learning Agreement and Transcript of Records and Request for Accommodation.

**Programme organisation:** Institute of Tropics and Subtropics

www.its.czu.cz

**Programme duration:** 2 academic years (120 ECTS)

**Programme director:** Ing. Vladimír Verner, Ph.D.

Phone: +420 224 383 153 E-mail: verner@its.czu.cz

**ERASMUS & Exchange students' coordinator:** Ing. Jana Hummelova
